Electronic precision balance

serie **BSK-HR**

Main properties

- weighing platform and substructure from stainless steel
- protection class IP65
- platform dimensions 365 x 235 mm (w x d)
- removable (coiled cord ca. 1m) ABS plastic indicator, model ISC-XS
- clearly readable, backlit LCD-display, 25 mm height
- equipped with RS-232 interface
- power: internal rechargeable battery, 230V adapter
- functions: tare, manually insertable tare; high resolution weighing (10x more accurate), formula weighing, checkweighing, percentage weighing, piece counting, in/out weighing, hold- and peak function
- version not for legal trade

Options

- real-time clock module (for printing date/time on ticket)
- alibi memory
- remote control
- printer, model AS-310
- labelprinter, model BP-500
- software All Scales Easy
- USB-interface
- built-in USB-kit
- ethernet interface
- wi-fi interface; bluetooth interface
- radio-interface for wireless connection
- cable for communication with PC

TYPE	BSK-HR-6	BSK-HR-15	BSK-HR-30
capacity	6 kg	15 kg	30 kg
division	0.1 g	0.5 g	1 g
platform dim. in mm	365 x 235 mm (b x d)		
packing dim.	510 x 400 x 300 mm		
gross weight	ca. 7.5 kg		

(application not for legal trade)
